As a man who has worked for thirty-five years for GM I am quite concerned that you are going to try and deny me my rights to seek and recover damages against the asbestos manufacturers and the property owners who allowed asbestos to be used by workers.

Mine is none-cancerous at the moment but what about down the road a few years. Let some of the lawyers and judges work under these conditions and then see what their opinions on these issues might be. The Michigan Constitution as well as the United States Constitution makes it clear that judges are not to make the law but rather interpret the law. Why is the Michigan Supreme Court even considering taking steps that would effectively change the law by denying Michigan asbestos disease victims their right to a jury trial.
